

# cfpc Accelerator

FOR IMMEDIATE RELEASE: 26 JULY 2017

## **New Joint Venture cfpc Accelerator provides high-growth businesses renewed funding access**

Partner Capital and CFPro Ventures are pleased to announce the launch of the **cfpc Accelerator**, a new joint venture providing opportunity for high-growth businesses to raise critical development capital quicker and with more certainty.

Failure to fund sufficiently and well in advance is consistently the biggest threat to business success. Through the **cfpc Accelerator**, clients will have the opportunity to benefit from comprehensive, all-encompassing support to underpin their high-growth ambitions through a combination of expertise and networks within the investment community and industry.

Partner Capital, a London-based specialist investment advisory business offering an extensive collection of services to support high growth enterprises has teamed up with CFPro Ventures, an experienced team of industry experts who have a strong track record in interacting with financial institutions to help high-growth UK companies and their intermediaries raise crucial funding to support future growth strategies.

The **cfpc Accelerator** aims to get qualifying businesses funding-ready by helping them overcome typical process gaps such as undeveloped financial, reporting and forecasting for institutional funding, improvement on operational processes critical to investor-stakeholder management as well as marketplace and product assessment and validation in order to successfully raise the necessary capital to support future growth.

Hardy Giesler of CFPro Ventures says, "We're excited about the launch of this initiative with Partner Capital, and being able to extend our services to businesses who are ready to grow, already demonstrate huge growth potential, but need the best expertise and skill to help get them there."

Businesses who wish to apply and be assessed for consideration of the cfpc Accelerator can get in touch with the team via email on [contact@cfpcaccelerator.com](mailto:contact@cfpcaccelerator.com) or by phone on +44 20 8948 4909, or via the website at [www.cfpcaccelerator.com](http://www.cfpcaccelerator.com).
